

Travel & Money Addition Problems

Write the two numbers on the blue lines. Add them and write the total on the red line.

1. Gio spent \$450 on books and \$335 on snacks. What is the total cost?

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

2. Jake traveled 552 miles by bus and 221 miles by car. What is the total distance?

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

3. Sara saved \$625 and earned \$745. What is the total amount?

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

4. Tom biked 469 miles and walked 40 miles. What is the total distance?

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

5. Ben spent \$287 on clothes and \$375 on shoes. What is the total cost?

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$
